Tim Eilers

German Citizen | tim.eilers@protonmail.com | github.com/eilerstim | German (native), English (C2)

Education

ETH Zürich — Zürich, Switzerland
Master of Science, Data Science — *Sep 2024 – Expected Apr 2027*
Bachelor of Science, Computer Science — *Sep 2021 – Aug 2024*
BSc Grade: 5.37/6.0 (Top 18% of my class)
Bachelor's Thesis: Development of an Android application for mobile heart rate data collection, featuring high-frequency, long-term background recording of IMU data, and animation-based UI

Nanyang Technological University — Singapore
Visiting Research Student | SPRL, Prof. XiaoFeng Wang — *Sep 2026 – Apr 2027*

National University of Singapore — Singapore
Undergraduate Exchange | School of Computing — *Aug 2023 – Dec 2023*

Experience

Cyberfy Consulting — Zürich, Switzerland
Full-Stack Software Engineer — *Sep 2024 – Present*
- Developing a custom Enterprise Resource Planning platform to manage company operations
- Designing scalable data models and backend logic in Python & SQL for business insight
- Driving development from requirements gathering to deployment in a three-person team

ETH AI Center — Zürich, Switzerland
Affiliate Graduate Researcher | LRE Lab — *Jun 2025 – Sep 2026*
- Built scalable pipeline to evaluate vision–language models on 100K+ multimodal counting tasks
- Finetuned vision–language models on CSCS Alps via model parallelism (PyTorch, Slurm, Docker)
- Created vl-saliency, an open-source Python library for gathering and visualizing a VLM's saliency

Swiss AI Initiative, Apertus — Zürich, Switzerland
Student Researcher — *Mar 2026 – Jun 2026*
- Built a scalable synthetic tool-generation platform for agentic LLM training
- Integrated the platform into Apertus' post-training pipeline to improve agentic performance

Publications, Talks & Projects

Looking Is Not Grounding: Better Localized Attention Does Not Ensure Grounded VLM Behavior
VLM4RWD Workshop | NeurIPS 2026 — *Dec 2026*
A. Brady*, **T. Eilers***, J. Wang, M. Akhtar — *Equal contribution

Infinite Interns: Get AI Agents to Do Your Busy Work
SDS2025: IEEE Swiss Conference on Data Science — *Jun 2025*
Led a hands-on workshop, attended by 30+ participants from industry & academia

upend.gg | *Solo-built browser-based multiplayer fighting game* — *Jul 2026 – Sep 2026*
- Created a deterministic TypeScript simulation with rollback netcode on Cloudflare Workers
- Features skill-based matchmaking, 20-player hub, and server-authoritative results and economy

Honors & Awards

Zeno Karl Schindler Foundation, Master Thesis Grant — *May 2026*
1st Place, Zeekr Global Automotive Cybersecurity Challenge 2026 Finals — *Sep 2026*
2nd Place, Amateur Classic Physique Open, INBA/PNBA Natural Universe — *Sep 2026*
Honorary Member, Swiss Red Cross (150+ stem cell donor registrations) — *Mar 2024*
